

**SOUTH JORDAN**  
ELEMENTARY

## April, 2026 Newsletter

Hello South Jordan Elementary Families,

I hope that all of you enjoyed a relaxing and fun spring break. We start the 4<sup>th</sup> quarter of the school year this week, and have 9 weeks remaining in the 2025-2026 school year. This is an essential time for learning and solidifying concepts leading up to end-of-year testing. I am so proud of the learning and growth that has occurred this year. Our teachers and students give their best every day.

As we move closer to the end of this school year, we start looking ahead to 2026-27. Over the next weeks we will finalize teacher hiring, grade level assignments, and classroom locations for next year. There is much thought and effort put into creating classes each year. Administrators, counselors, and teachers work together to balance academic, social, behavioral, and other needs. If you feel that you have essential information that would assist us in this process, you can complete a "Classroom Placement Input Form". These forms are available in the main office, and can be submitted until Friday, May 1. Please note, this form is not intended as a teacher or friend request. Any forms that include requests for specific teachers will be disregarded.

We have incredible educators at South Jordan Elementary, and each one follows the same curricular and instructional expectations. As a faculty and staff, everyone follows our Positive Behavior Intervention System (PBIS) and other school wide procedures for rigor, instruction, and behavior management. That being said, there are occasionally unique circumstances and needs that need to be considered to help students have the best possible experience. Thank you for your support of our entire school family as we carefully create classes for next year.
